Tacoma, WA 98466 (253) 888-6555 cortesnicholas04@gmail.com [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

EDUCATION

University of Washington

Seattle, Washington

B.S Computer Science and Systems

Expected Graduation, Spring 2027

- **Related Coursework:** Computer Programming I, Computer Programming II, Object-Oriented Programming & Data

Web Development Coding Bootcamp University of Washington | August 2022 - February 2023

PROJECTS

AI-Powered Productivity Tool | Study-Generator |

[Source Code](#)

Full-stack AI productivity tool | **Python** | **YOLOv5** | **GPT-4o** | **Tkinter**

- Achieved 99.8% detection accuracy training YOLOv5 for 500+ epochs.
- Generated synthetic labeled datasets using Puppeteer and Sharp.
- Integrated GPT-4o to create intelligent study plan recommendations.

Blogy |

[Source Code](#)

Full-stack Blog Platform | **NEXT.js** | **AWS S3** | **MySQL** | **Node.js**

- Improved SEO and performance with server-side rendering.
- Built secure image uploads and optimized storage via AWS S3.
- Added dynamic category filtering and markdown preview editing.

Rental-Car |

[Source Code](#)

Car Rental Web App | **React** | **MySQL** | **Node.js** | **JWT** | **Redux**

- Developed a functional rental system where users can search, book, and manage car reservations in real time.
- Built end-to-end booking flow using JWT sessions and Redux.
- Created admin analytics dashboard with Chart.js.

ACHIEVEMENTS

- **6th Place – UW Hackathon (2024):** Built a full-stack AI app that predicted fungal diseases from images and used GPT integration to provide treatment advice and pre-screening, achieving 99.8% accuracy within 8 hours.

WORK EXPERIENCE

Lead Painter | Rappisi Professional Painting — Tacoma, WA August 2020 – July 2024

- Supervise a 3-member crew across large-scale commercial projects.
- Manage client communication, materials, and quality control.
- Train new hires on safety procedures and job-site efficiency.
